

Good Shepherd Parish
Personnel Committee Report
January 15, 2008

On January 15, 2008 Paulette and I met with Paula Moses to make ourselves available to assist her in combining and put together the parish's business organization. Paula, Paulette and I exchanged thoughts and ideas. Paula thought that once the move to MHT takes place, and the office personnel are located in one place, that the office organization would be more efficient and more cost effective. Paula also thought that once the cluster names a pastoral coordinator that some of her present, pastoral type duties could be shifted to the pastoral coordinator and free up more of her time for facilities matters. Once Paula has put together her organization, Paulette offered to conduct a Myers-Briggs workshop for them. Steve agreed to check back in with Paula in about a month to see what else we could do to help her.
